

STATE 2,700,876
COUNTY 24,727

Census Bureau Gives Population
Figures for Jackson County and
For Indiana.

STATE GAINS; COUNTY LOSES

The Small Gain for State and The
Loss for County Come as a
Surprise.

The following telegram was re-
ceived late this afternoon by the Re-
publican:

Washington, D. C., Nov. 16.
Daily Republican, Seymour, Ind.:
State population thirteenth census
2,700,876; twelfth census 2,516,462;
eleventh census 2,192,404. Jackson
county population thirteenth census
24,727; twelfth census 26,633; eleventh
census 24,139.

E. DANA DURAND, Director.
This is the first word received here
from Washington showing the re-
sults of the last census for this
county and will be read with interest,
but affords little satisfaction. The
report shows that in 1900 the county
had gained 2494 over the population
ten years before, but has lost 1906 in
the past ten years. A gain of only
588 is shown in the past twenty years
and it is believed that some mistake
has been made in the transmission of
the report. While no big gain was ex-
pected in the rural districts it was
thought the gain which it is expected
will be shown in Seymour would make
a substantial increase for the county.
No word has yet been received re-
garding the population of this city.
Indiana by the report has gained
184,414 in population in the past ten
years. For the preceding ten years
the gain was 424,058.

MARRIED.
VANDE WALLE—BRASKETT.
John Vande Walle and Mrs. Ethel
Braskett, of Vallonia, were married
at 8 o'clock Tuesday evening at Mr.
Vande Walle's rooms on West Second
street. The ceremony was performed
by Rev. Harley Jackson. Mr. and
Mrs. Vande Walle will make their
home in the suite of rooms over the
Steinwedel Music store.

Anthracite Coal.
Anthracite coal, all grades of soft
coal, baled timothy hay, baled clover,
baled straw, threshed oats, in fact
everything in the feed line.
n19d G. H. ANDERSON.

The official count in the state
shows the Socialist party is now the
third party in Indiana having received
2608 votes more than the Prohibi-
tionists.

An infant child of Mrs. Maud Hal-
lowell is quite sic.

When looking for a wedding present
see Jackson's display before buying.

YOUR
DRUG STORE

One very important feature
for you to consider in the selec-
tion of your DRUG STORE is
its convenience. Our store
certainly must appeal to you on
that ground. Located as we
are on the principal corner of
the best town in Indiana, we are
neighbors to all parts of Sey-
mour. Or if you don't want to
leave home, ask Central for 633,
tell us what you want and in a
few minutes we will have it at
your door. Don't forget the
number, Six Double Three.

Andrews-Schwenk Drug Co.
The Rexall Store
Registered Pharmacists

St. Paul Ladies' Aid Society.
The Ladies' Aid Society of the St.
Paul's church will be entertained
Thursday afternoon by Mrs. Henry
Massman and Mrs. Henry Bretthauer
at the home of the former, corner
Chestnut and Laurel streets. Friends
and members are cordially invited.

Officers Elected.
At the meeting of the Jackson
township Sunday School convention
the following officers were elected for
the coming year:
President, Frank H. Hadley.
Secretary, Fred Bacon.
The next meeting will probably be
held in the spring.

BORN.
To Mr. and Mrs. Louis Ferrell, of
Greenwood, Wednesday, Nov. 16, a
daughter. Mrs. Ferrell was formerly
Miss Carrie Freeman and assisted her
sister, Mrs. Zelma Leas, in the millin-
ery store.

Is Mentioned
The Indianapolis Star says that
former Senator Carl Wood is being
mentioned for a place in the Attorney
General's office.

Masons to Scottsburg.
A large number of Seymour Mas-
ons will go to Scottsburg this even-
ing and will assist the lodge there in
initiation work tonight.

Fresh Meat.
We open a fresh meat market Mon-
day, Nov. 14, in connection with our
grocery, corner Third and Ewing
streets.
n18d MEYER BROS.

FIREMEN PROMOTED.
Five B. & O. S-W. Men Advanced.—
More Men Hired.

More B. & O. firemen were pro-
moted to engineers today. The men ad-
vanced were L. H. Myers, L. M.
James, R. H. Peek, R. L. Myers and R.
B. Blaine. C. A. Miller, an engineer
from the Seaboard Air Line was hired
today. Three new firemen have been
hired this week. They are Fred
Fields, of North Vernon, Jacob Bab-
elman, of Osgood and A. W. Tam-
brook and E. R. McClure, of Colum-
bus.

National Troubadours.
The ladies take this means of
thanking most sincerely all those who
assisted in making the entertainment
of last evening a success. They ap-
preciate the patronage of the public
which made it a success financially,
and they doubly appreciate the kind-
ness of the parents who lent their
children and of the young people who
gave so willingly of their time and tal-
ent.

PLEA OF GUILTY
ENTERED BY NEAL

Young Man Acknowledges He De-
frauded the Scottsburg State
Bank Last August.

MADE VISIT TO SEYMOUR

Leaving Clews Which Led to Capture.
—Mother and Wife Plead For
His Release.

Walter Neal, the young man who
under the name of Thomas L. Mann-
ing, on August 1, defrauded the
Scottsburg State Bank out of \$900,
has entered a plea of guilty. Judge
Shea has withheld sentence until af-
ter Friday on which day the case
against J. W. Sharick, the Frankfort
hotel man, who is charged with being
an accomplice of Neal in swindling
the bank, is set for trial.

If Sharick is not ready for trial on
that day his case will go over until
next term, as Friday is the last day
of this term.

It is thought the trial of the case
will be postponed.
A strong effort is being made by
Neal's relatives to have him released
on suspended sentence. His wife,
who comes from a prominent Terre
Haute family, has remained loyal to
her husband and is staying at Scotts-
burg. She made an earnest plea to
Judge Shea for the release of her
husband as did the young man's
mother.

The latter has been sick at a sani-
tarium at Battle Creek, Mich., but was
at Scottsburg Tuesday to see the
judge. She believes her son will re-
form if given the chance. The bank
officials have made no statement and
it is not known what attitude they
have in the matter as they will make
no expression until after the Sharick
hearing.

Neal, who is the son of a Metho-
dist minister, and a former student of
DePauw, made a twenty minutes talk
when he entered his plea. He said he
had been reared properly and if given
another chance would keep straight.
He claimed that through force of cir-
cumstances he had drifted into the
commission of the crime. That while
making experiments in chemis-
try he had discovered an ink that
chemicals would not erase and also a
manner of closing perforating in bank
checks so they could not be noticed.
He had organized a company to man-
ufacture the ink and was putting the
goods on the market last summer.
His wife became sick and being short
of funds he committed the fraud at
Scottsburg in a time of desperation.

It will be recalled that Neal repre-
sented to the bank that he was buy-
ing real estate in Scott county and af-
ter depositing a draft, which later
proved to have been raised from \$4 to
\$4,000, secured \$900 in cash. Neal
came to Seymour the same day and
made several purchases, leaving clews
which led to his capture within a
short time.

Following his visit here Seymour
people have watched the progress of
his case with interest. He has been
in jail at Scottsburg for several
months.

THE NATIONAL
TROUBADOURS

Over One Hundred and Fifty Children
Delight a Large Audience at
The Majestic.

LOVELY COSTUMES AND DRILLS

Make Up an Evening of Pleasure
Under the Direction of the
Presbyterian Ladies.

The entertainment given at the Ma-
jestic theatre Tuesday evening under
the direction of the ladies of the
Presbyterian church, was greatly
enjoyed by the large audience which
was present. The house was
crowded to its capacity to hear the
excellent program which had been
prepared. More than one hundred
and fifty children and young people
took part in the program which
consisted of singing and drills. The
different groups were dressed in cos-
tumes appropriately representing the
nationalities which they represented,
and each presented a song and chorus
which displayed well the excellent
training which they had received.

The program opened with a song
and drill by over one hundred children
representing butterflies, fairies and
gnomes, with Agnes Andrews filling
the part of fairy queen. This fea-
ture was greatly enjoyed by the au-
dience. Then followed the groups of
troubadours, each with song and
drill, and they all did their work in a
manner that pleased the audience,
each group appearing in the follow-
ing order:

Mexican troubadours: soloist, Lois
Reynolds; chorus, Ethel Rottman,
Katie Shepard, Lovell Bottorff, Helen
Galbraith, Elsie Reynolds, Nell Fox;
character song, Minnie Heintz.

Italian troubadours: soloist, Laura
Shepard; chorus, Gladys Coryell,
Carrie Aufderheide, Nannie Bottorff,
Alma Switzer, Kathryn Kessler, Irene
Hunsucker.

Twentieth Century Group: soloist,
Lois Reynolds; chorus, Marguerite
Miller, Luella Toms, Grace Doane,
Mabel Kasting, Lola Fodermark, Lo-
ra Reynolds, Albert Ross, Frank
Wheeler, Rex Whitson, Julius Tecke-
meyer; character song, Loretta Bol-
linger.

Spanish troubadours: soloist,
Frances Murdock; chorus, Esther
Bush, Mary Lee Galbraith, Harriet
Montgomery, Kathryn Hancock, Jo-
sephine Fettig, Hazel Heintz; charac-
ter song, Helen Clark, Leonard Bart-
lett.

The troubadours Amazon drill,
which included the groups of trou-
badours was then well given, and this
was followed by a character song by
Adelaide Gasaway and Albert Ross,
and a Dutch song by Marie Knauff
and Elmer Bollinger, jr. Following
these specialties three groups ap-
peared with song and drill as follows:

Indiana: Soloist, Donald Hopkins;
Chorus, Hattie Roeger, Marie Cordes,
Florence Appel, Edna Smith, Dorothy
Ulm.

Auto Girls: Soloist, Adelaide Gas-
away; Chorus, Gertrude Sweeney,
Verna Weaver, Jewel Cox, Emma Ad-
ams, Elizabeth Hoffman, Nina Bot-
torff.

American Girls: soloist, Albert
Ross; Chorus, Clara Langhorst, Er-

ma Heuser, Margie Fry, Dora Grelle,
Julia Kerkhoff, Francis Switzer,
Nora Pomeroy, Mary Teckemeyer.

The program closed with a drill by

those who took part certainly de-
serves great credit for the successful
manner in which she did her work,
and for the enthusiasm which she in-
spired in all who assisted in making
the evening a successful one.

Gasoline Traction Engine.

Officials of Reeves & Company are
experimenting with a gasoline trac-
tion engine. The drawings for the
new engine have been completed and
the first castings will probably be
made in a few days. As soon as pos-
sible after the parts are made they
will be assembled and the machine
will be brought out for a trial spin
and demonstration.

There is a demand in the west for a
gasoline engine and the model to be
manufactured by Reeves & Company
will be a fifty-horse power. It will be
no more powerful than the steam
tractors made by the company, but
it will be more easily handled and will
appeal more to the farmer who plows
with gang plows and uses an engine
for general hauling purposes. The
gasoline engine does not have to be
fired and can be started as easily as
an automobile. This means an early
start each morning and means that
one man can handle it. The experi-
ments with gasoline tractors in the
west and northwest have been so suc-
cessful that the local company has
determined to go after some of this
business.—Columbus Republican.

RARE BIT OF MONEY.

Silas Wilder Has Five Dollar Note
Issued by Uncle Sam in 1779.

Silas Wilder has a piece of paper
money which he prizes very highly. It
was issued by the new government of
the United States in 1779. It bears
the following wording: "No. 130398.
Five Dollars. The bearer is entitled
to receive five Spanish Milled Dollars
or an equal sum in gold or silver, ac-
cording to a resolution of Congress of
the 14th of January, 1779." On the
other side are the signatures, J. Sea-
cock, and H. Donnell, and the imprint
of Hall & Sellers, 1779. The bit of
paper is 2½ by 3¾ and is a very rare
specimen of our early money.

Izzy Cohn's Marriage.

The Majestic Opera house on Fri-
day, Nov. 18, offers to its patrons
the Grant & Gibson Musical Comedy
Company in a laughable comedy, en-
titled "Izzy Cohn's Marriage," with
Harry Wayne in the title role. The
wit is new and original the humor is
clean and wholesome.

The company is filling dates in
leading theatres and has invariably
played to good houses.

Died in Indianapolis.

Mr. Flynn, who formerly conducted
a grocery on West Brown street, died
Monday morning at his home in Indi-
anapolis. He left here about five
years ago and for awhile had a gro-
cery in Indianapolis but during the
past two or three years has been in
bad health and has not been engaged
in business. He leaves a wife and
son.

Card of Thanks.

We desire to thank all the friends
and neighbors and especially the
choir and friends who sent flowers as
an expression of their sympathy at
the burial of our husband and father,
Jacob Becker.

PROPOSED CHANGE
TO INCREASE LEVY

To Raise School Rate In Townships
Required to Borrow Money to
Complete School Terms.

OF INTEREST IN THIS COUNTY

Proposed To Raise Minimum Levies
Ten Cents Before State Can
Be Called Upon.

Several recommendations are to be
made by the department of instruc-
tion to the coming legislature, one of
which is of interest to many of the
taxpayers of Jackson county. It pro-
vides for an increase in the levies for
general school purposes in townships
which are required to borrow money
from the state treasury to carry out
six and seven months terms of school.
Under the present laws a township
school corporation which has a 25-
cent levy and does not raise sufficient
money to carry on the schools for a
term of six months may draw on the
state treasury for additional funds
required to maintain the school for
that length of time, and a township
having a seven months term must
have a levy of 40-cents before they
can draw on the state treasurer. Sev-
eral of the townships in this county
have the above levies but do not raise
sufficient money and depend upon the
state treasury for money to complete
the terms. The money borrowed is
paid back when the taxes are collect-
ed.

Robert J. Ale, who resigned as
state superintendent of public in-
struction last Saturday, believes that
the minimum levy should be increased
and has prepared a recommendation
to that effect. He is of the opinion
that the minimum levy for a six
months school should be raised to 35
cents instead of 25 cents, while that
for a seven months term should be
increased from 40 cents to 50 cents.
If the recommendation of Mr. Ale
is adopted a law will be passed pro-
viding for a 10-cent increase in the
school levies of all such townships.

Speaking of the recommendation,
Mr. Ale said that the state should
be compelled to assist school corpo-
rations only when the corporations
helped themselves. He believes that
the minimum levies are entirely too
low. He said that in many instances
the rate is purposely made too low in
order that the corporation may draw
on the state for large amounts which
is an injustice to other counties.

The question of the state's contri-
bution to school corporations which
do not raise sufficient money to carry
on the schools for the required length
of time is one which has attracted
considerable attention during the last
two years, because of the publicity
which Mr. Ale gave to the annual
drafts on the state deficiency fund.
It is probable that the general as-
sembly will be asked to change the
laws in some way, and the recom-
mendation by Mr. Ale is the only
one thus far advanced as a solution.

SONG: "PLANNING"

THE PRESIDENT LOOKS IT OVER

Panama Canal Is Again Inspected By Mr. Taft.

TIME IS TO BE WELL OCCUPIED

Without Delay the President Entered Upon the Task of Going Over the Monumental Work Accomplished by Army Engineers on the Isthmus and Expects to Put in Four Very Busy Days on the Job.

Colon, Panama, Nov. 15.—Lieutenant Colonel Goethals, chief engineer of the Panama canal work, and the others of the receiving party were waiting on board the tug Cristobal for the arrival of President Taft's party and approached the Tennessee as soon as the latter hove in sight. When the president's vessel reached her anchorage the tug drew alongside and the receiving party went aboard and formally welcomed the president to Panama. President Taft and his party at once boarded the tug and came ashore. As the president left the Tennessee a salute was fired.

President Taft plans to be here four days, his schedule calling for his arrival on his return at Charleston Nov. 22. The president's visit is one of business, and it is expected his time will be well occupied with matters involved in the construction of the Panama canal.

Soon after President Taft's arrival he boarded a train for Culebra, the site of Culebra cut. Before leaving for the cut the president heard reports from the chiefs of the various divisions as to the progress of the work on the big ditch. Tomorrow night President Taft will dine with the president of the Panama republic.

A special train had been prepared for the president. He was accompanied to Culebra by Lieutenant Colonel Goethals and the other members of the canal commission; Peruvian Minister Pezet, dean of the diplomatic corps in Panama; British Minister Mallet, and these representatives of Panama: Foreign Minister Boyd, Pezarisario Porras, minister to Brazil, and Senator Arosemena, a nephew of President Arosemena.

The voyage of the Taft party was uneventful. En route home President Taft will stop at Guantanamo, Cuba, for a brief time to inspect the American naval base there.

ANNUAL REPORT

Federation of Labor Hears From Its Chief Officers.

St. Louis, Nov. 15.—President Samuel Gompers of the American Federation of Labor devotes a large part of his annual report, made to the thirtieth convention of the federation in session here, to an attack on court injunctions. Mr. Gompers criticizes Supreme Court Justice Goff of New York for the open-shop decision made during the garment makers' strike, and slaps at the Sixty-first congress for failing to limit the injunction power of the courts.

The annual report of Secretary Morrison says that there were 1,561,151 members at the close of the fiscal year, Sept. 30, 1910, a gain of 80,000 over last year, but 100,000 less than their biggest year, 1904. The federation has a reserve fund of \$183,000. There were 827 strikes in the last year, of which 470 were won, 259 are pending, 84 were compromised and only 62 were lost.

MORE TROUBLE

Nicaragua Never Does Seem Able to Settle Down.

New Orleans, Nov. 15.—Information from different Central American sources, tells of the recurrence of trouble in Nicaragua. Leon and Corinto have been scenes of rioting. Troops shot down persons who resisted the efforts of the soldiers to clear the streets of political exhorters and their trailing crowds. The outbreak seems to have been promoted by malcontents, dissatisfied with the selection of Juan Estrada as president of Nicaragua for the next two years.

Hasn't Yet Made Proof.

El Paso, Tex., Nov. 15.—Mexico has not yet succeeded in making a case against the United States in the burning of Antonio Rodriguez at Rock Springs. Although the Mexicans have attacked Americans throughout Mexico and started several good-sized riots since the event, the Mexican government has not yet proved that Rodriguez was a Mexican citizen.

Kentucky Outlaw Shot Down.

Lexington, Ky., Nov. 15.—"Bad Jack" Noble, who shot and killed Jailer Wesley Turner of Breathitt county in Jackson, was shot to death by a sheriff's posse in Knott county. When the posse called upon Noble to surrender he made a demonstration to resist and was promptly riddled with bullets.

Victim of Speed Mania.

Savannah, Ga., Nov. 15.—Falling to rally after his injuries in practice on the grand prize course last Thursday, W. H. Sharp, a New Jersey auto maker and racer, died last evening at the Savannah hospital.

MAHA VAJIRAVUDH.

Prince of Siam Now King of Picturesque Country.

Washington, Nov. 15.—The state department has been informed by George Carrol Terler, the American charge d'affaires at Bangkok, that the new king of Siam has been crowned.

HOOSIER DEMOCRATS DECLARE FOR CLARK

Congressmen-Elect Are All For the Missourian.

Indianapolis, Nov. 15.—Representatives-elect to congress from Indiana have been asked to give their preference for speaker of the next house, as it has been represented that a number of conservative Democrats hold the view that a northern Democrat, other than Champ Clark, would better the chances of the party in the presidential race in 1912.

The opinion seems to be that sectionalism does not count, and that the dominant consideration in the selection of a speaker is the election of a man who will give each party in congress the right to make its own committee assignments.

In each instance the Democratic members-elect declare their intention to vote for Clark.

An Early Arrival.

Washington, Nov. 15.—Champ Clark of Missouri, the leading candidate for speaker of the new Democratic house of representatives, will arrive here some time this week. The indications are that the Democratic members of the present house will nearly all be here ten days or two weeks in advance of the opening of the session.

NEW SUPERINTENDENT

Charles A. Greathouse Head of Indiana Department of Education.

Indianapolis, Nov. 15.—Charles A. Greathouse, elected state superintendent of public instruction, who was appointed to that office to succeed Robert J. Aleay, who resigned, has assumed charge under a commission extending until March 15, when his elective term will begin. Mr. Greathouse retained in the office the force appointed by Mr. Aleay, as follows: Assistant superintendent, E. G. Bunnell; deputy state superintendent, John I. Hoffmann; clerk, Sarah E. Cotton; stenographer, Nellie Yule; chief of the manuscript department, Marietta H. Dunn.

Negro Held as Suspect.

Asbury Park, N. J., Nov. 15.—Thos. Williams, the negro suspected of mistreating and killing eleven-year-old Marie Smith, whose body was found in a wood near Wanaamassa on Sunday afternoon, was put through an exhausting examination by the local police. He broke down when confronted with the body, but continued to protest his innocence.

Cashier's Accounts Short.

Brunswick, Md., Nov. 15.—The Savings Bank of Brunswick has been closed by order of the state bank commissioner. This action was taken when a shortage of \$10,000 was discovered in the accounts of the cashier of the bank. It is said that there has not been a meeting of the directors in the last two years.

Asked Congregation's Forgiveness.

Sutton, Mass., Nov. 15.—The Rev. Oscar F. Stetson, pastor of the First Congregational church here, against whom charges involving a pretty woman member of his church choir are made, asked the forgiveness of his congregation from the pulpit, and then read his resignation.

New Haven, Conn., Nov. 15.—There have been 50,000 applications for tickets for the Yale-Harvard football game.

SAME OLD ROW TO BE RENEWED

Ballinger-Pinchot Controversy Again in the Limelight.

WILL HOLD CENTER OF STAGE

Coming Session of Congress Will Be Marked by an Immediate Renewal of the Long-Drawn-Out Trouble in the Interior Department—An Effort May Be Made in the House to Impeach Mr. Ballinger.

Washington, Nov. 15.—The Ballinger-Pinchot controversy will hold the boards at the coming session of congress, and Democrats say there is a chance they may make an effort to impeach Mr. Ballinger in the house. The principals to the controversy have within the last day or two revived the quarrel, both issuing statements bearing on the legality of the Cunningham claims for coal lands in Alaska.

Senator Nelson of Minnesota, chairman of the congressional committee of inquiry, is expected in Washington early in December. Immediately on his arrival he will call a meeting of the majority of the committee made up of Senators Root of New York, Flint of California and Sutherland of Utah, and Representatives McCall of Massachusetts, Denby of Michigan and Olmstead of Pennsylvania, and the chairman himself. If present plans are carried out the report of the majority will be submitted to the house just before the Christmas recess. While there is no authority for the statement, it is the understanding that the majority report will sustain Secretary Ballinger. The Democratic report, to which Mr. Madison of Kansas, Republican, signed his name at Minneapolis in September, condemned Secretary Ballinger and recommended his dismissal from the cabinet.

The administration itself proposes to take action that will start things moving in congress in connection with this long-drawn-out trouble. In a statement issued Saturday Secretary Ballinger made it known that in his annual report he would ask that jurisdiction in the Cunningham cases be transferred from his department to the district court of appeals. Mr. Pinchot immediately came out with a letter that he had written to the president, in which he said Ballinger might be expected to rush the Cunningham claims to patent. Mr. Pinchot repeated his charge that the claims are illegal and that they should be rejected by the president without waiting for action by congress.

Democratic leaders count on the united support of the insurgent Republicans in their efforts to force the adoption of the minority report in the Ballinger-Pinchot case. Friends of Pinchot say they will have the support also of a few conservative Republicans. The minority leaders realize that whatever the action of the house the senate is not likely to take action that would amount to a censure of the Taft administration. The subject of impeachment proceedings against Ballinger comes from Democratic sources. Some of the radicals, among them Representative Ollie James of Kentucky, who is the most outspoken of Mr. Ballinger's critics on the committee on inquiry, are said to favor such a course. This suggestion, however, is not taken seriously and probably will not go beyond the stage of mere talk.

HERE'S A NEW ONE

Bold Attempt Made to Dynamite Auto of Wealthy Farmer.

Lafayette, Ind., Nov. 15.—An attempt on the life of W. A. Woodard and his son John, wealthy farmers, living near Colfax, was revealed by the discovery of two half-pound sticks of dynamite that had been wired to the bed of the automobile in which they drove to Colfax, a distance of three miles.

The discovery was made by Jack Dunbar, the town marshal and owner of a garage into which the machine had been driven for repairs. Attached to the dynamite were percussion caps, fuse and matches.

It Was a Mistrial.

Tuscola, Ill., Nov. 15.—Because six of the jurors refused on circumstantial evidence to convict Zina Curtwright of shooting his wife, Judge Cochran was forced to dismiss the jury and call for a new trial in the Curtwright murder case.

Fair; same Wednesday.

TAFT AT PANAMA.

President Makes Another Inspection of Canal Work.

FOOTBALL PLAYER IS RELIEVED OF BLAME

Coroner's Jury Finds Death Was Due to Accident.

Wheeling, W. Va., Nov. 15.—"We, the coroner's jury in the case of the death of Rudolph Munk of the West Virginia football team, find that he came to his death by accident when, during a game played at Wheeling, Nov. 12, he collided with Thomas McCoy of the Bethany college football team," is the verdict that was reached at the coroner's inquest. Attorneys for McCoy were present and asked for the dismissal of charges against their client, and the warrant charging murder that had been issued against young McCoy, whose home is at Canton, O., was quashed.

Players of both teams testified at the inquest and there was much conflicting evidence. Prosecuting Attorney Ramsey of Brooke county, a spectator, said that he heard McCoy say after Munk had been rendered unconscious: "He had been slugging me all through the game, but I got him that time." McCoy did not come here, but remained in Canton.

CHECKED JOURNEY

Count Tolstoy Too Ill to Carry Out Voluntary Exile Design.

St. Petersburg, Nov. 15.—Count Tolstoy has left Schamrdinsky, where it seems he went merely to pay a visit to his sister. He started northward with the evident intention of going to Sweden, but was stricken with illness on a train and compelled to alight at Astopovo, which is in the government of Njasan. The condition of the count is said to be precarious. His temperature has reached 104, it is said, and he has refused to be taken to a hospital from the railway station. He is attended by Dr. Makovetsky and his daughter Alexandra.

Fans Race Bitterness.

Austin, Tex., Nov. 15.—Another Mexican, Damian Rios, who kept a restaurant at Giddings, thirty miles east of here, has been assassinated. Much excitement exists among the Mexicans of the community fifteen miles east of here over the assassination of a Mexican farmer by two negro boys.

Victory for the Packers.

Trenton, N. J., Nov. 15.—The state court of errors and appeals has reversed the decision of Supreme Court Justice Swayze, directing the National Packing company and the other big packing concerns to produce their books before the Hudson county grand jury.

TERSE TELEGRAMS

Hugh Inman of Atlanta, the wealthiest man in Georgia, is dead, aged sixty-three.

The eighteenth annual convention of the National Municipal League is in session at Buffalo.

The population of Salt Lake City is 92,777, against 63,531 in 1900, an increase of 73.3 per cent.

The Nobel prize for chemistry has been awarded to Prof. Otto Wallach of the University of Goettingen.

The population of Augusta, Ga., is 37,826, as compared with 39,441 in 1900, a decrease of 4.1 per cent.

Though Senator Aldrich of Rhode Island will retire March 4, he will make his headquarters in Washington regularly.

Colonel Roosevelt has accepted an invitation to be the guest of the National Press club at Washington, Friday afternoon.

Exports to China from the United States will show a smaller value in the calendar year 1910 than for many years; certainly less than in any year since 1903.

PLATFORM HAS BEEN ADOPTED

Indiana Conservation Society Now Ready For Business.

MANY OFFERS OF ASSISTANCE

Individuals and Organizations All Over the State Are Coming to the Front With Tenders of Aid in a Movement Which Promises to Do Much Toward Advancing the Interests of Hoosierdom.

Indianapolis, Nov. 15.—A meeting of the executive committee of the Indiana branch of the National Conservation association will be held tomorrow afternoon for the purpose of considering methods of interest to the whole state in the conservation movement and for receiving a report from a special committee appointed to choose members of the subcommittee of the organization.

At an executive meeting Saturday afternoon, held in the office of William H. Dye, president of the Indiana branch, the platform of the organization was adopted. According to this platform, the Indiana branch stands for a more efficient administration of existing conservation laws and the enactment of necessary additional legislation; for a campaign of education of the people concerning the value of conservation; for the conservation of health by prohibiting the emptying of waste materials into the streams; for the state purchase of forest lands at the headwaters of streams; for the planting of more timber on farm lands; for improved methods of agriculture; for the passage of a law for the encouragement of the use of the water power of the state; for the permanent improvement and widening of highways; for the safeguarding of the lives of men working in mines, and for the continuation and extension of the policy of co-operation of the state and federal agencies in the conservation work.

Offers of assistance from various individuals and organizations over the state have been received. The Indiana State Federation of Women's clubs is one of the organizations which has offered its support. Requests are being sent in from various Indiana cities asking for representatives in the membership of the Indiana branch.

ENDS THE FEUD

An Indiana Township Wiped Out as Result of Political Fight.

Bedford, Ind., Nov. 15.—To get rid of a political feud that has caused troubles in Flynn township, this county, for years, the county commissioners have abolished the township and it has been divided up among other townships in the southern part of the county. The township has been rent by factions in both parties for years, and two years ago it elected Dr. Butler, a Republican, as trustee, though there are 150 Democrats and only fifty Republican voters. Butler resigned with the understanding that his successor should be a Republican, but the county auditor, a Democrat, appointed a member of his party to the office. Then in order to rid the township of this trustee and stop factional quarrels, the people petitioned the commissioners to abolish the township, and it has been wiped from the map.

TAKEN INTO COURT

Life Insurance Merger Checked by Injunction at Terre Haute.

Terre Haute, Ind., Nov. 15.—A temporary injunction has been granted the minority stockholders of the Indiana Industrial Life Insurance company, with headquarters here, by the superior court. It restrains the majority stockholders of the concern from disposing of the company to the Public Savings Life Insurance Company of America, which has headquarters in Indianapolis. A hearing on the injunction will be held Saturday.

The minority stockholders maintain that their interests are not being taken care of in the merger. Some time ago State Auditor Billheimer investigated the company and ordered that a large sum in bona fide securities be put up. This has not been done.

Its Drawing Powers Growing.

New York, Nov. 15.—That the horse show has come back to popular favor and is growing still in popularity, was demonstrated yesterday afternoon, when the attendance was larger than at any Monday performance of any previous show in the history of the association.

Paris Still Alarmed.

Paris, Nov. 15.—The river Seine is rising at a very slow rate. Effective measures have been taken by the government to prevent the flooding of the sewers and the underground railways.

Islanders Defeat Tigers.

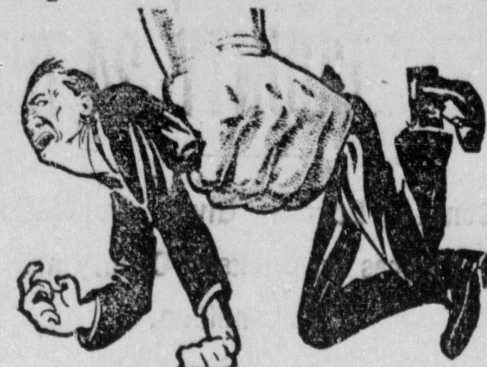

Havana, Nov. 15.—The Havana baseball club defeated the Detroit Monday by the score of 3 to 2.

It is evident now that the Montana legislature on joint ballot will be a tie, but this may be changed one way or the other by the official count.

The Kidney Cure Without a Failure

The Positive Cure That Revolutionizes Treatment of Kidney Diseases, Rheumatism and Bladder Trouble.

These statements are not exaggerated. There is no necessity in doing so, because every man and woman suffering from kidney or bladder troubles, or rheumatism can prove it within 24 hours by getting a free package of Dr. Derby's Kidney Pills at any drug store.

Dr. Derby's Kidney Pills are ahead of the times, the only kidney and bladder treatment that makes good its strongest statement. Get a free package at your druggist's and see if we have said a hundredth part of what these little wonder-workers do.

Now listen, sufferers, don't get excited. Just lay away all your present treatments for your kidneys, back or bladder. If you have pain in the back, profuse or scanty urination, colored or foul urine, rheumatism anywhere, diabetes, pain in the bladder or terrible Bright's disease, just get a 25c package of Dr. Derby's Kidney Pills at your druggist, and see the difference in yourself in 24 hours. If you think this is too good for you to believe, just ask your druggist for a free sample package, and try it. Remember, Dr. Derby's Kidney Pills—60 pills—10 days' treatment—25c. We will send them from the laboratory of Derby Medicine Co., Easton Rapids, Mich., if you wish. They are safe, guaranteed.

JOHN LA FARGE

Eminent American Artist and Man of Letters Is Dead.

Providence, R. I., Nov. 15.—John La Farge, artist and man of letters, is dead at Butler hospital after a long illness. He is survived by a widow, three daughters and four sons. His three daughters are Mrs. William Claxton of Philadelphia, Mrs. Edward H. Childs, the wife of a New York lawyer, and an unmarried daughter, Frances. The surviving sons are Grant La Farge, a New York architect; Pancel, an artist, who lives in Switzerland; Oliver Hazard Perry, a Seattle banker, and John, a Jesuit priest.

Many Methodists Will Gather. Shelbyville, Ind., Nov. 15.—One of the largest religious gatherings in the state in the next few weeks is to be held in this city on Dec. 8 and 9, by the Indiana Methodist Episcopal conference, which is said to be the largest conference of that denomination in the country. At least 550 people are expected.

OLD SORES DUE TO DISEASED BLOOD

Every symptom of an old sore suggests diseased blood. The inflammation, discharge, discolored flesh, and the fact that local applications have no permanent effect toward healing the ulcer, shows that deep down in the system there is a morbid cause for the sore. But more convincing proof that bad blood is the cause for these places is furnished by the fact that even removing the sore or ulcer by surgical operation does not cure; they always return. Nature will heal any sore if the blood is pure and healthy, but until the circulation is cleansed of all impure matter and supplied with nourishing and plasmic qualities the infected condition of flesh is OBLIGED to remain. S.S.S. heals Old Sores in a perfectly natural way. It goes into the blood, removes the impurities and morbid matters, adds nourishing qualities to this vital fluid, and brings about the very conditions that are necessary before any sore can heal. S.S.S. is a perfect blood purifier, acting directly on the circulation through the stomach and digestive membranes. Its use makes rich, red, healthy blood, which nourishes all flesh tissues instead of infecting them with the virulent matter which keeps old sores open. Special book on Old Sores and any medical advice free.

THE SWIFT SPECIFIC CO., Atlanta, Ga.

MEMORANDA.

Wilson Julian and wife, of West Frankfort, Ill., are visiting friends and relatives here and on Pea Ridge.

William Spear and family passed through here Thursday en route to Joe Matlock farm, near Freetown, where they will reside in the future.

David Stover, of near Mt. Zion, died Saturday, November 12, aged about 75 years. Thus another veteran of the civil war has passed away.

Kathleen Schooley, of Valleria, visited friends here Saturday.

John Croucher, who is barbering at Bedford, came here Saturday evening to visit home folks.

Mrs. Ruth Croucher, who has been visiting relatives at Martinsville, returned home Saturday.

Si Suffington, of Butler county, Kan., after visiting his mother and brother here, left for home Tuesday.

W. F. Harris, brakeman, was home Monday.

Norm Dodds, brakeman, is off duty this week on account of an injury to his back while unloading heavy freight.

Fifty-seven relatives and friends, with well-filled baskets, reminded Aunt Fanny Weddell of her eighty-sixth birthday anniversary last Friday.

Mrs. Eva Stewart, of Seymour, came down Monday to visit home folks.

A medicine show troupe is visiting our town this week.

Quarterly conference, presided over by Elder Gilley, of Washington, convened Monday evening at the U. B. church.

Fred Vawter, formerly of this township but who is now a street car conductor in Indianapolis, and Gertrude, daughter of Alfred Younger, of Pea Ridge, were married last Wednesday. They will reside at Indianapolis.

J. E. Henderson and wife, Mr. and Mrs. J. C. Kennedy and George Skinner and family dined with Mr. and Mrs. T. W. Weddell Sunday.

LEESVILLE.

George Glover moved here last week from Oolitic, occupying the property belonging to K. D. Thompson.

The election passed off quietly.

Charley Trueblood and wife, of Seymour, came last week to visit friends, and while here Charley caught a cold, but not finding one to suit, so he and his wife returned home Friday.

Barney Goens is very sick at his home south of town, threatened with typhoid fever.

Quite a number of our citizens will attend the church wedding of Miss Alma Root to Henry Platts on Tuesday night at 7:30 o'clock at the Methodist church.

Rev. Mr. Rex preached at the Church of Christ here Saturday night, Sunday morning and evening to very good audiences.

Henry Woolery is added to our sick list.

Mr. and Mrs. Creed Douglass celebrated their twenty-seventh wedding anniversary Sunday, November 13, at their home south of town. Quite a number of guests were present, and wished them many returns of the happy occasion.

Curt Gelstrap went to Madison Monday and will bring his brother, Clint, home with him, if he is able to come.

Stiles Hill and family, of the Ridge, visited at D. P. Gilley Sunday.

A ten-year-old child of Ed Meeks fell from a chair, dislocating its shoulder. Dr. S. W. Smith was called.

Dr. S. W. Smith called to Salem last week to see his mother, who is sick.

SPRAYTOWN.

Henry J. Houston and C. Jenkins, of Indianapolis, were down Sunday looking after the former's farm, which he purchased recently from Charles Purvis. He informs us that his son will move on the farm in the spring.

On account of sickness, Rev. Meade Reynolds failed to preach here Sunday, and his father, Rev. Frank Reynolds, of Hobson, filled his place.

George Hauck, Jr., and sister, Lizzie, were at Seymour on business Wednesday.

Miss Frances Reynolds, of Hobson, attended church here Sunday afternoon.

Clifford Kern made a business trip to Seymour Saturday afternoon.

Alfred Williams and son, Winn, were at Brownstown on business Saturday.

Etta Hehmann, of Acme, visited her sister, Mrs. John Bennett, from Friday until Monday.

Mrs. Luther Williams visited in the family of Fred Roberts, of White's Chapel, Sunday.

On account of sickness, John Bennett returned home Monday from Illinois, where he was husking corn. He tells us that his folks are well satisfied and like the country around Saybrook fine.

Ed Bennett, Jr., came down from Indianapolis Sunday evening on business.

Quarterly meeting was held here last Wednesday and on account of sickness the elder could not be with us. Rev. R. Schneider, of Brownstown, was in charge of the meeting.

The Sunday School convention will be held at Freetown next Saturday afternoon and evening.

EAST GRASSY.

Born to Fred Rewe and wife, November 14, 1910, a daughter.

Brack Meeks sold a span of horses last week for \$325.

Jason Johnson hauled gravel for J. Frank Kelley, making a concrete walk around his buildings.

Ben Jones purchased 100 bushels of corn from Mr. Persinger, near Brownstown, last week.

Will Johnson went north last week to husk corn a month or so.

John W. Downing is having rock put on the pike west of the river bridge. Turkey raisers are selling their turkeys this week at 15 cents per pound.

Wes Fleenor and wife went to Indianapolis last Saturday to see their daughter, Mrs. Maud Coffey.

John F. Wehmiller burned a kiln of tile last week. The demand for tile is greater than the supply, as farmers are taking more interest in drainage than usual. The past season has taught them a lesson that will be remembered.

Mrs. Cull Jones and daughter, of Indianapolis, are visiting Benjamin F. Jones this week.

The first session of the Farmers' Institute of Jackson County will be held at Crothersville December 7. A good program has been arranged and good speakers will be present. Let us make this institute a good one. The meeting will last but one day.

CONGRESSMAN DIXON

Is For Champ Clark For Speaker—
Expresses Views.

Congressman Dixon of this district, has announced that he is for Champ Clark for Speaker, and says that the Missouri man will be the only candidate in the wind-up.

Mr. Dixon in an interview in the News expressed the following views on what the election means to the Democrats:

"The opportunity is here for the Democratic party to make good, and it is up to the party to make good to the people," he said. "If the Democrats in congress get together and outline a reasonable program of things which they can accomplish and then carry it out it will be all right. The Democrats in the house can reduce the expenses of the government and make a good showing of economy, and this they must do. They also can revise certain schedules of the tariff law, a schedule at a time. They can take the schedules which the people know are too high and reduce them to the proper point,

and this will show the people what the Democrats would do if they had the power and were in control of the government. Such a course as that will bring the people to the support of the party in 1912, and will result in the election of a Democratic senate and a Democratic President. The vote at the 1912 election would then be one of approval. The vote at the election this year was one of condemnation for the Republican party and its policies. Unless the Democrats make good in the next two years the vote at the next election will be

one of condemnation for them. But I believe the Democrats realize their position and that they will follow a safe course in legislation."

Fred and Walter Becker, of Newport, Ky., and Philip Becker, of Franklin, who have been here to attend the funeral of their father, Jacob Becker, will return to their homes this afternoon. Rev. A. G. Becker, of Nashville, expects to return home Thursday morning. This is the first time all the children have been together for about fifteen years.

SAVE THE EYES OF THE BABIES

Indiana Health Board Issues a
Timely Warning.

AVOID PREVENTABLE DISEASE

Veritable World Plague of Sore Eyes of New-Born Babies, Which Is Responsible For Most of the Blindness in the World, May Be Prevented So Easily That It Is Little Short of Criminal Not to Adopt Precaution.

Indianapolis, Nov. 16.—Statistics show that there are 60,000 blind persons in the United States, one-third of whom are blind from a disease which is easily prevented. In Indiana there are approximately 2,500 blind persons, of whom 800 are blind from this disease. This disease further causes 72 per cent of all blindness in children under one year of age, and has been denominated by one writer as "a veritable world plague." The tragedy of it all is that children and adults blind from this disease need never to have been blind.

The disease causing all this trouble is called "Ophthalmia Neonatorum," or the sore eyes of new-born babies. It usually manifests itself a few hours after birth and matter is seen coming from between the eyelids. When left to itself it very soon causes loss of sight if not destruction of eyesight in every baby thus afflicted.

This dread disease can be prevented, says Dr. A. N. Hurty of the state board of health, by having the doctors upon the birth of the baby drop into each eye a 1 per cent solution of nitrate of silver. So well informed are the mothers of the state of Connecticut, that they demand that the doctor use the "drops" in each and every baby's eyes when born. The medicine can do no harm. The refusal to have it used may fill a life of a mother full of regret because it was not used.

Suppose the disease develops in spite of the above precautions? Call a doctor right away. Never use a poultice or mother's milk or any other suggestion from well meaning but un-informed neighbors and friends.

FOR BETTER ROADS

An Official Test Will Be Made in Southern Indiana.

Evansville, Ind., Nov. 16.—Several short stretches of test roads will be built in southern Indiana under the direction of an engineer from the department of agriculture during the next few months. W. B. Anderson of Velpen, Ind., president of the First District Corn School association, is trying to secure the co-operation of the federal authorities in building the test roads. The materials to be used are sand and clay. It is asserted by the department that a road can be made without the use of rock or heavy gravel that will stand the wear of traffic. It is the plan of President Anderson to work up enough interest in each county to put in a strip of the test roads during the winter months and let the success or failure of these first roads determine future operations.

BRUTAL ASSAULT

Aged Police Judge at Brazil Stricken
Down in His Room.

Brazil, Ind., Nov. 16.—W. D. Mershon, police judge, aged seventy-six, was found unconscious and in a serious condition at his home in East Main street. Groans attracted pedestrians and when the door to his room was broken open Judge Mershon was found with a deep gash in his head and two ribs broken. The gash in his head penetrated the skull, and it is feared he will die. It is believed the assault was made by someone who had a grudge against the judge. Mr. Mershon is a widower and for some time has been in poor health.

Conference of Lucky Candidates.

Indianapolis, Nov. 16.—While candidates for state office elected on the Democratic ticket held a meeting here with party workers from all parts of the state to discuss appointments. Among those present were members of congress from a number of districts, and they all declared that Champ Clark would be elected speaker of the next congress without opposition.

His Invention Went Wrong.

Otterbein, Ind., Nov. 16.—While experimenting with a new carburetor, an invention of his own, Dr. F. E. Follette caused an explosion of the gasoline in the tank of an automobile, seriously and perhaps fatally injuring his wife, burning himself and wrecking the automobile and garage.

Suicide of Young Woman.

Worthington, Ind., Nov. 16.—Miss Hazel Manus, aged nineteen, committed suicide. She lived with the family of P. N. Berens, who brought her here recently from a Catholic orphan's asylum at Chicago.

Town Clerk Killed in Accident.

Linden, Ind., Nov. 16.—Walter Haxton, aged twenty-eight, town clerk, is dead as a result of injuries received from being thrown from his motorcycle when the machine ran into a rut in the road.

Rousing Values In Winter Merchandise Of Assured Quality Beauty and Service

"After all is said" about merchandise, there is nothing so important as quality. When you buy here you buy the best the various markets have to offer in any particular line; in other words, you can rely upon the article being the newest, best and most serviceable obtainable anywhere at the price. We stake our 25 years of experience and reputation on the absolute merit of the goods we sell without

Premiums, Prizes or Contests to Measure Values.

At present time our stocks in all departments are so complete, there is not a seasonable requirement we cannot supply.

We will feature this week a number of specials, from various departments, which will exemplify in no uncertain manner, how well we combine saving with spending.

We will omit prices in this announcement as every department could not be mentioned for lack of space.

TOLSTOY'S WIFE AT HIS BEDSIDE

Special Train Carries Countess
to Astapovo.

OLD COUNT IS IN NO DANGER

Chilled by Rain Through Which He Drove on Part of His Runaway Trip, the Eccentric Old Philosopher Was Brought Down With an Attack of Bronchitis, but Is Reported Getting Along Well.

St. Petersburg, Nov. 16.—Although a majority of the reports from Astapovo represent Count Tolstoy's condition to be very serious, his daughter, Alexandra, telegraphs that he is in no immediate danger. He is suffering from bronchitis. It is stated that he drove the considerable distance from Schamardinsky to the nearest railway station in a drenching rain and was severely chilled. He is now comfortably lodged in the station master's house and is well attended, but his daughter complains that he is greatly inconvenienced by the crowd of newspaper men who have invaded the house. Countess Tolstoy and her son Andrew and daughter Tatiana have arrived there on a special train. Several of the count's friends say that his journey was premeditated for a long time and was the result of an intense mental conflict.

NO TRACE OF THEM

Those Reported Mexican Invaders Vanish Upon Investigation.

Austin, Tex., Nov. 16.—The prospects of any attack on Rock Springs being made by an alleged Mexican invading force, is considered too remote and ridiculous by Governor Campbell to be worthy of serious thought, although he complied with the request of Sheriff Hope and sent rangers to the town. The governor is of the opinion that an armed force of Mexicans would not last long on this side of the border. Sheriff Robinson of Valverde county, where the armed band of Mexicans is said to have organized, notified the governor that he had found no trace of the reported invaders. He said that everything is quiet in his part of the border.

ANOTHER VICTIM

Fourth Death Marks Mysterious Poisoning at Slocum Corners.

Wilkesbarre, Pa., Nov. 16.—A fourth death following the poisoning of the family of Moses Millington of Slocum Corners, near here, came when Mrs. Mary P. Johnson, mother of Mrs. Millington, and who had attended the victims of the poisoning, fell dead. Coroner Dodson, believing that her heart might have been affected by the subtle poison in the bodies of Millington and his two children, who are all dead and whom she nursed, ordered an autopsy. Mrs. Millington, the sole survivor of the family, is now dying. The authorities have not yet learned the nature of the poison nor how it got into the buckwheat cakes which the victims ate.

Did the Robbers Come Back?

Great Barrington, Mass., Nov. 16.—Five shots were fired from the woods at a party of Italian laborers, seriously injuring one, just at the place where Paymaster R. J. Hein was held up last week and \$20,000 stolen. The Italian laborers are in a great state of alarm, as they fear the shots were fired by the robbers, who came back after the money which they had hidden.

After Gompers's Scalp.

St. Louis, Nov. 16.—Notwithstanding denials of several of the Socialist leaders in the convention of the American Federation of Labor that no fight is being made on President Samuel Gompers in an effort to elect a Socialist as his successor, there is every indication of it.

He Just Missed Them.

Ottawa, Ont., Nov. 16.—Looking for his wife and children, who, he says, ran away with a former United States army officer, Charles H. Morrison of Portland, Me., has arrived here. The couple had been at a hotel here for nearly a month, but left a few days ago for the west.

Marion Favors New Plan.

Marion, Ind., Nov. 16.—From the growing sentiment in Marion in favor of the commission plan of government, this city may ask to be included among petitioners to the next legislature to enact a law permitting the use of the commission form of government for cities.

Given Safer Quarters.

Asbury Park, N. J., Nov. 16.—Thomas Williams, the negro upon whom suspicion rests for the murder of Marie Smith, the ten-year-old school girl, has been taken to Freehold, the county seat, for safekeeping.

Indiana Federated Commercial Clubs. Anderson, Ind., Nov. 16.—The third annual convention of the Indiana Federated Commercial clubs is in session in this city.

COL. GOETHALS

Canal Engineer Wants Big
Ditch to Be Fortified.

ONE MAN'S NOTION OF A SARCASTIC REPLY

Remarkable Letter Introduced
In the Huston Trial.

Washington, Nov. 16.—The officials of the National Trust company of this city, including J. N. Huston, former treasurer of the United States, are on trial here for conspiracy to use the mails to defraud. In the course of the trial before Justice Wright and a jury this letter from Manager H. M. Lewis of the trust company to the National Bond company of Rochester, N. Y., was read by United States Attorney Wilson:

"Replying to yours of the 6th inst., requesting brief history of our company, would say that our forefathers came over in the Mayflower and some time thereafter organized this company. It has been doing business since the year pompteen and has recently established a branch for discovering the number of suckers left in the country by the National Bond company. Confidentially, we think we will have to retire from business, as we don't believe you have left any."

"Our financial statement follows: \$12,000,000,000,000 undigested securities; \$65,000,000 in dispensable pills; \$16.50 furniture; \$11.42 cash; \$82 national banks; brains, nit."

"Don't get enlargement of the heart and send us all your business, but if you should see your way clear to using us where we can get a little dough, why spit it out. Very truly yours,"

"The National Trust Company."

The defense explains the letter as a "sarcastic reply" to what Manager Lewis considered an impertinent inquiry.

Report Not Confirmed.

Jackson, Ky., Nov. 16.—Reports to the effect that Bad Jake Noble, slayer of Jailer Turner of Breathitt county, has been killed by officers cannot be confirmed here and are generally denied by the Breathitt county authorities. The last heard from Noble was that he had hidden in the mountains and had successfully eluded the officers who are trailing him.

TERSE TELEGRAMS

The population of the state of Maine is 742,371, an increase of 47,905, or 6.9 per cent over 1900.

Governor Harmon's plurality in the state of Ohio by unofficial complete returns is about 100,000.

"The tide has at last turned and meat prices are on the down grade," says Edward Cudahy.

The new Cuban budget amounts to \$36,279,630, which is slightly less than the current year's budget.

William Dudley Foulke of Richmond, Ind., was elected president of the National Municipal League, in session at Buffalo.

Sir Hugh Graham of Montreal says that the report that he is to succeed Lord Strathcona as Canadian high commissioner at London, is absurd.

Princess Ziganova, a descendant of the ancient dynasty of the czars of Georgia, has been murdered by burglars in her country house near Tiflis.

The senate committee on privileges and elections which is inquiring into the Lorimer case, will make a report before the adjournment of the coming session.

A committee of New Yorkers is receiving donations to a fund out of which to defray the expenses of Mayor Gaynor's illness and medical treatment last summer.

Guthrie wins the state capital back from Oklahoma City by the decision of the Oklahoma supreme court, which decision puts an end to a hard fight between the two cities.

The authorities of Middletown, N. Y., are after the Erie railroad and intend to put a stop to the use of soft coal on locomotives of that railroad passing through that city.

Charles Orrin Breed, formerly the world's champion (amateur) strong man, who was pronounced physically perfect at Harvard three years ago, dropped dead from heart disease at Lynn, Mass., aged fifty-eight.

EFFICIENT DIRT ROAD IMPLEMENT

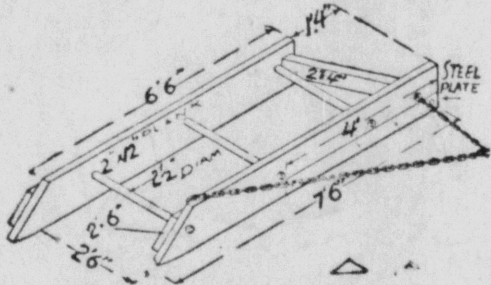

Construction and Methods of
Using a Plank Drag.

WORKS BEST ON MOIST SOIL

Better Results Achieved by First
Crowning Roadway With a Blade
Grader—How to Operate the Machine
Successfully.

How to construct and use one of the most useful and handy devices for improving earth roads is described in the Breeder's Gazette by Professor L. W. Chase of the Nebraska experiment station, who says:

The split log drag, or, as it is commonly called, the King drag, is with-

KING ROAD DRAG MADE OF PLANKS

out doubt the best implement for keeping roads in shape and in many instances is as efficient as any other implement in the construction of earth roads.

The King drag can be constructed of either a split log or a plank, but in Nebraska the plank is much easier to obtain than the log; hence this brief description pertains to the construction from planks.

Select a good yellow pine, ash or oak plank two inches thick, twelve inches wide and fourteen feet long. Cut this in two at an angle so that one edge of each piece is seven feet six inches long and the other edge is six feet six inches long. Spike to the back and along the center of each of these planks a two inch by six inch piece, which re-enforces the plan. Bore the holes for the cross stakes about twenty-six inches apart and four inches from each end with a two and one-half inch auger, using care to keep the auger perpendicular to the plank. The two inch by four inch brace at the front end should start from the middle of the rear plank and drop to the bottom part of the front plank. The blade, which is generally made of stock cutter steel, should be given the proper cutting slope by placing a wedge shaped strip between it and the plank. One end of the chain is fastened to a cross stake, and the other passes through a hole in the plank and is held in position by means of a pin.

The use of the drag is more satisfactory if the road has first been crowned with a blade grader, but whenever this is not convenient and the traffic is not too heavy the road may be gradually brought to a crown by means of the drag.

The surface of the average country road should be covered in one round with the drag. One horse should be driven on the inside of the wheel track and the other on the outside, the drag being set by means of the chain so that it is running at an angle of forty-five degrees with the wheel track and working the earth toward the center of the road. In the spring, when the roads are more likely to be

DIRT ROAD BEFORE DRAGGING.

rutty and soft, it is generally better to go over the road twice and in some places oftener.

The drag should be floored with boards which are separated by open spaces of sufficient width so that the dirt which falls over will rattle through, and yet they should be close enough so that the driver can move about upon the drag quite freely.

To insure the successful operation of the drag it is necessary for the driver to use careful judgment. Sometimes it is essential that the blade be held down so that the drag will cut roots and weeds, while at other times the front edge should not bear too heavily upon the surface, as it will dig out a soft place which would be better if left undisturbed. This regulation of the cutting edge can be accomplished by the driver moving back and forth or to the right and left on the drag.

If the road is to be crowned with the drag it is often well to plow a light furrow along the sides and work this loosened dirt to the center. On roads with heavy traffic the drag should be used much oftener and with more care than on roads with light traffic.

The distance from the drag at which the team is hitched affects the cutting. A long hitch permits the blade to cut deeper than a short hitch; likewise a heavy doubletree will cause the cut-

ting edge to settle deeper than a light one.

There are very few periods of the year when the use of the drag does not benefit the road, but it does the best work when the soil is moist and yet not too sticky. This is frequently within a half day's time after a rain. When the earth is in this state it works the best, and the effects of working it are fully as beneficial as at any other time. The Nebraska soils when mixed with water and thoroughly worked become remarkably tough and impervious to rain, and if compacted in this condition they become extremely hard. This action of the soil in becoming so hard and smooth not only helps to shed the water during a rain, but also greatly retards the formation of dust.

So much has been written and said pertaining to the great benefits from the use of the road drag that many people beginning the use of it become discouraged before they are well started. They should not feel thus, as it often takes a whole season for the road to become properly puddled and baked to withstand the rains and traffic. After a road has been worked with a drag only a short time it is not well to expect it to stand up to heavy traffic during a continued damp spell without being affected. However, it will take far heavier traffic than most earth roads receive to more than scuff up the surface. During the four years that the writer has observed the road shown in the illustrations only once has it ever become so soft that teams were not hauling a ton and a half of coal in each load over it. Even in the fall of 1909 teams were delivering 3,500 pounds of coal at a load to the university farm boiler house before the roads became frozen.

It is not well to consider the benefits from a good road as solely confined to heavy traffic, for there is no doubt that the time saved to light vehicles

THE SAME ROAD AFTER THREE YEARS' DRAGGING.

and the greater pleasure derived from their use over good roads far surpass the economy in heavy hauling. While driving over a well crowned, smooth road the team does not have to follow the usual rut, no slacking has to be made for irregularities in the surface, and it matters not whether one or two horses are being driven.

Calcium Chloride For Preventing Dust.

The Houston (Tex.) Post has the following discussion of dust preventive:

Second in importance only to the construction of good roads themselves is the solution of the dust problem. Automobile traffic has had a revolutionary effect upon road building and has taxed the utmost energies of road engineers throughout the world to cope with the new conditions which have arisen. The dust that is raised by a rapidly moving machine is disagreeable and annoying not only to other users of the highway as well as the occupants of automobiles following in the wake of the car ahead, but also the residents along the road. The only real and permanent solution of the problem is the construction of a binder that will not yield to the effects of automobile traffic. Oil and tar together with various other preparations have been tried out, and especially abroad, with only fair success. In most cases their application is expensive and their effects disagreeable. The greatest satisfaction from all standpoints has been obtained both in the United States and abroad from the use of calcium chloride. It is the cheapest of all layers, with the exception of water, and in some cases is much more economical than the latter when the cost of dust prevention for the whole season is taken into consideration. One of its greatest advantages is that it is clean and absolutely odorless. In fact, it seems to have been demonstrated that calcium chloride can be used with profit on frequently traveled highways.

Good Road Helpers.

Don't be jealous of the automobile owner, for if he doesn't happen to own land in your township he is paying taxes in some other place and thus contributes his share toward the making of better roads, and in many instances he is advancing money to aid in road construction. If a road is made better for an automobile it is also made better for a buggy with a load of eggs in the back end.

A Good Move.

It is a good idea to have a clean ditch at each side of the road before winter. The other day a farmer plowed a good furrow out of each ditch of the road alongside his farm, and he pulled the dirt over the grade with a road drag. It was a neat thing to do. The dirt put on the grade was not enough to make mud, but enough to open a clear track for the water into each ditch.

Answer This Question

When a remedy has lived for over thirty years, steadily growing in popularity and influence, and thousands upon thousands of women declare they owe their very lives to it, is it not reasonable to believe that it is an article of great merit?

We challenge the world to show any other one remedy for a special class of disease which has attained such an enormous demand and maintained it for so many years as has **Lydia E. Pinkham's Vegetable Compound**, the famous woman's remedy for woman's ills. Unless it is a very good medicine and the claims made for it are honest, such a record would have been impossible—fraud or misrepresentations would long ago have been detected and the business gone into oblivion. Read this unsolicited letter:—

Corry, Pa.—"I am happy to write you about the benefit I received from **Lydia E. Pinkham's Vegetable Compound**. Before my marriage two years ago, I suffered something awful every month with pains and other distressing symptoms, and I took **Lydia E. Pinkham's Vegetable Compound** in dry form. Since then I have never been troubled with pain, not even a dull backache or headache, and it has helped me a good deal before childbirth. I recommend your medicine wherever I go."

—Mrs. E. D. Ross, 112 E. Church St., Corry, Pa.

When a woman like Mrs. Ross is generous enough to write such a letter as the above for publication, she should at least be given credit for a sincere desire to help other suffering women. For we assure you there is no other reason why she should court such publicity.

We say it in all sincerity and friendship—try this medicine.

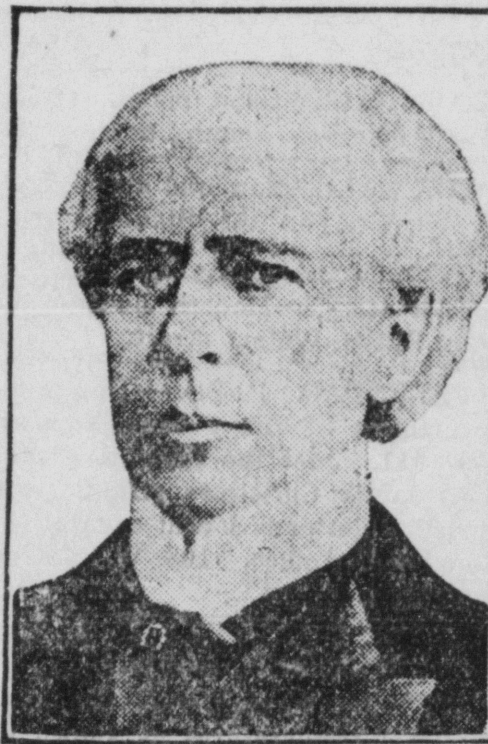

For 30 years **Lydia E. Pinkham's Vegetable Compound** has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

PREMIER LAURIER

Head of Dominion Government
Having Political Troubles.

Heart to Heart Talks.

By EDWIN A. NYE.

"WHO IS MY NEIGHBOR?"

I was on my way downtown one morning when, on the doorknob of the third house from mine, I saw that sad signal of bereavement—

Crape and ribbons.

There was nothing uncommon about that—in the city. But it was so close to where I lived. The crape shocked and reproached me. I halted.

The people of the place were unknown to me. I had seen them only occasionally in the few months they had lived there.

Going up the steps, I rang the bell, introduced myself and asked if I could be of any service.

Afterward I spoke to others of the

neighborhood who called, and several of us attended the funeral service.

A boy had died after several weeks of sickness. I did not know any one was sick there. Within a rod or two of my home one had sickened and died and I did not know!

Going on my way that morning, I tried to excuse myself and the others.

I said to myself that in the city it is a physical impossibility to know the people among whom you live. Folks come and go. Perhaps you do not know the name of the next door dweller or those who live above you or below you in the flat.

It is the way of the city.

And a cruel, heartless way it is. With the human hive swarming with people the word neighbor has no significance. Those who are your friends live perhaps across the city or miles away.

I said to myself—

Suppose that poor boy had been so ill in a town or in the country. Every one would know and sympathize. Delicacies would be sent. Neighbors would sit up and relieve the tired parents.

And as I thought of the hard ways of metropolitan life—ways caused not by hard heartedness, but by neglect and thoughtlessness—the old, old question asked itself:

"Who is my neighbor?"

And I thought of the wonderful story of the Jericho road and the man who fell among thieves and of the good Samaritan.

And, measured by the application of that story, I wondered if, somehow, we unneighborly city dwellers, so forgetful of our common human obligations, would not be included in the condemnation visited upon the priest and the Levite who passed by on the other side.

TIME.

Time is a mocker. To two persons differently situated time has either the wings of an eagle or the feet of a snail. To a man in expectancy a day appears a week and a month a year. To one in possession the sun seems no sooner risen than it is set and summer has scarcely arrived before autumn seems ready to appear.

THE "HAPPY" ROOM

Cross or Unpleasant People Have No Place In It.

NOVELTY FOR CHURCH BAZAAR

A Sartorial Message of Hope For the Woman Who Is Economically Inclined—The Madam Butterfly Bow and a Quickly Made Dessert.

Dear Elsa—You have heard me speak often of Grandma H., haven't you? She wasn't, as you know, a real relative, but a dear connection through love and unflinching sympathy not only to me, but to every one of her friends who needed her counsel and guidance—and they were many. Yes, she was "grandma" to every one who knew her well and loved her.

This dear old lady, who recently crossed the bar, suffered intensely for thirty of her allotted threescore and ten years, but bravely and uncomplainingly. There was no suggestion of the peevish invalid about her always bright and cheerful personality. Everything interested her, the latest discovery in the world of science, the best books, any little bit of harmless neighborhood gossip and music—always music filled her soul with unspeakable delight even unto the end, when it soothed her delirious moments. Like Julia Ward Howe, this dear old

MADAM BUTTERFLY BOW.

lady might at the close of her life have said, "The deeper I drink of the cup of life the sweeter it grows—the sugar all at the bottom."

Grandma's room during her lifetime was ever the brightest place in the home, and through the beautiful and uplifting thought of her daughter the sunshine of her presence is still felt there.

Nothing in the room has been disturbed save the bed, and the space it occupied is given over to an upright piano. Grandma's favorite plants fill one of the high window shelves, and her best loved books lie on the center table, around which now and again these autumnal evenings a rubber of whist is played or a bedtime story is told to the children.

The room has been christened the "happy room," and no one is allowed to enter it in a rebellious, cross or unpleasant mood. Every one who would gain entrance must contribute to the peace and happiness of every one else. Now, is it not a beautiful idea, this "happy room," a lovely tribute to grandma's memory, more far-reaching and helpful than will ever be known?

A Sample Sale.

Now I'm going to tell you of the latest fad in the way of a bazaar or fund sale for a club or to raise money for one of your charitable objects. It's a sample sale. The sample may be a book which some author has donated—a sample of his or her literary style—or it may be a sample of some noted housewife's cooking, a cake or some candy pickles, homemade wine or preserves. A "sentiment" of an author, together with his or her autograph, may constitute another sample nicely inclosed in an envelope tied with ribbon or in a cover of suede leather, when it makes a specially choice sample.

A sample of a friend's crochet work or embroidery or hand sewing, such as an apron or corset cover; a recipe for a salad or other edible originated by a good professional cook, a small water color or painting in oil, a sample of an artist's ability—any of these will make an excellent feature at a sample sale.

The samples which a manufacturer or storekeeper gives away of a new article—starch powder, stove polish, sewing silk or any of the numerous samples afloat in the market—make fine things for the sample sale.

As the sample sale is a splendid ad. for the makers, there is seldom any trouble in getting goods of this kind.

Stationery, Christmas cards, milk, dolls and other apparently incongruous articles are good sellers at a sale.

Matched Sets In Fashion.

I must tell you, too, about the matched sets of hat, muff and scarf that are so much worn this winter. It is a new idea, and in this age of combinations there is great opportunity to make one set of furs go a long way. I have an old set of skunk furs that I am using in this manner. I purchased a remnant of stunning brocade that is making the puffed crown of my turban, which is edged with the fur and a twist of the pelt surrounding a huge jeweled disk.

Now for the muff. On a lining of muslin I have strips of the brocade between alternate bands of fur, and at the hand openings are several ruffles of velvet with an inner one of chiffon. In other words, have an up to date muff just about twice as large as those of last year. The scarf is made long and of rows of fur and brocade like the muff. And some small pieces of the fabric that I had left over I have made into the smartest hand bag on a silk cord to be carried over the arm. These sets are charming in their completeness and in the message of hope that they hold for the woman who is economically inclined.

Another lovely cheap notion for smartening up an old house gown is the Madam Butterfly bow, made of tulle, generally black, that stands out in wing-like loops at the back of the waist. It has long streamers of tulle that are knotted on the ends.

Just have patience with me and let me add this quick dessert recipe that saved my life recently when some people came in unexpectedly to luncheon and then I'll stop this rambling letter.

The Dessert.—Put a couple of pieces of canned peaches or pears on individual dishes and fill the cavities with whipped cream; stick on each three or four blanched almonds, and you will have something good to set before your guests and be thankful for the suggestion to MABEL.

New York.

HAT BUILDING TIPS.

Some Things to Interest the Ambitious Amateur.

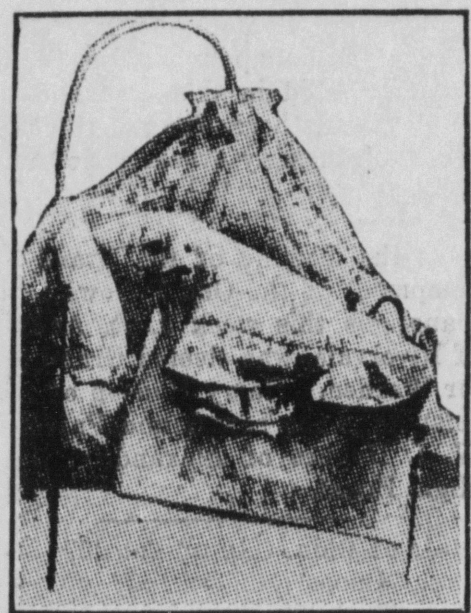

Homemade millinery is almost baffling at the present moment. From building the large bows and choux and swathing the folds of piece silk and satin to sewing in feathers and flowers, hat trimming, in fact, has entered a new phase, and many of the old theories on wiring, sewing and trimming have had to undergo some modification. The choice of a thread for sewing on the trimming is most important, a black hat or one in a dark shade, no matter whether it is made of silk, velvet or felt, requiring cobbler's shoe thread in preference to machine thread, however low a number may be available.

A good bow is always the test of a beginner's progress, nothing being, as a matter of fact, harder than to evolve a large and perfectly balanced bow whose loops spring evenly from the center. A professional milliner always in beginning to make a bow gives the thread three or four turns round the first loop without knotting the thread. When all the loops have been made she cuts it off about ten inches from the last turn and after threading the needle uses the loose end with which to sew the bow to the hat. If the ribbon has to be wired the wire should be sewed the full length of the loop, no considerations of trouble suggesting such an evasion of trouble as that of attaching the wire simply at the base, which causes it to work out of place with wear.

To bind the border of a hat with wire necessitates the use of No. 24 cotton, the stitches being carried slantwise over it, while care must be taken to prevent the stitches from being seen on the wrong side.

The Pampered Pet.

The extent to which canine worship is carried nowadays is exemplified in

THE MODERN DOGGIE'S CRADLE.

the luxurious dog cot seen in the illustration. An American woman recently had this cot especially made for her favorite dog.

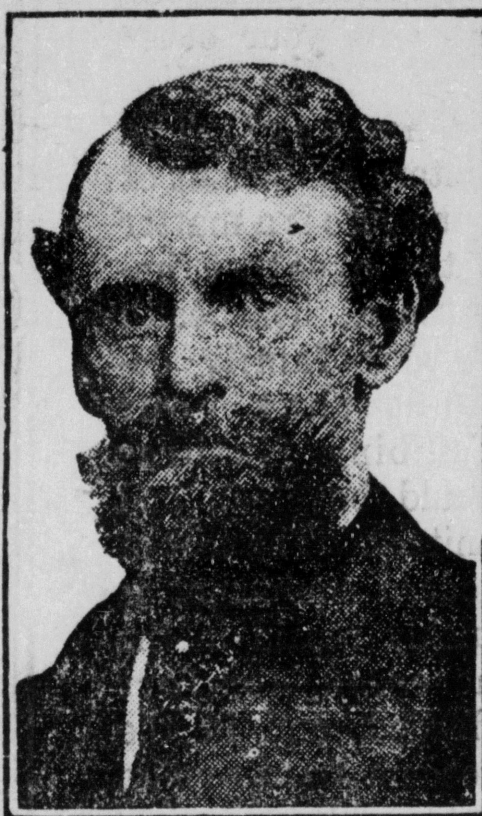

A Present For Mother.

A dainty hairpin holder for mother or older sister can be evolved from a doll's hat, with the two edges of the brim caught together in the center. The pockets thus made are filled with white curled hair, and the top is covered with a coarse gilt net or a heavy meshed white net if the other cannot be found.

Make a hanger of narrow ribbon and trim it with bows on each side of the basket. The hanger is sewed to the rim, where the basket is joined. If a little more decoration is liked a few artificial flowers can be tucked into the bow at the right side.

WILLIAM A. CLARK

Former Senator From Montana Wants to Wear Toga Again.

CARTER OUT OF IT

Veteran Senator From Montana Billed to Lose His Seat.

Helena, Mont., Nov. 16.—Thomas H. Carter, Republican, will be succeeded in the next federal senate by a Democrat, the official canvasses just completed having resulted in a Democratic gain of two members, one each in the house and senate. There are three candidates for the senate as Carter's successor, T. H. Walsh, a wealthy lawyer; W. G. Conrad, a millionaire banker and mining man of Helena, and supposedly W. A. Clark, the Butte mining man. The legislature now stands fifty-two Democrats and fifty Republicans.

SCHENK FOISON CASE COMES TO SHOW DOWN

State Will Hurry Hearing of Accused Woman.

Wheeling, W. Va., Nov. 16.—The Laura Farnsworth Schenk case took a sensational turn when Prosecuting Attorney Handlan requested Judge Jordan of the criminal court to call a special session of the Ohio county grand jury. Orders were issued immediately and summons for the grand jurors will be served by deputy sheriffs.

"The reason that a special session of the jury has been called is that various important witnesses for the state are being tampered with by detectives in the employ of Mrs. Schenk. We desire to get the evidence of these material witnesses as soon as possible," said the prosecutor.

The sessions of the grand jury will be behind closed doors. The witnesses will include the chemists from the Johns Hopkins hospital at Baltimore and the University of Virginia, who made an analysis of the lithia water and found arsenic in it.

The calling of the special grand jury means that the preliminary hearing of Mrs. Schenk, who is charged with the attempt to poison her millionaire husband, will be held without delay. At the preliminary hearing the state will only introduce enough evidence to make a probable case against the woman. Attorneys for Mrs. Schenk say they are ready and willing to have the preliminary hearing take place at any time.

That there will be no additional arrests in the case is the general opinion. Rather an amusing feature is the shadowing of the detectives hired by one side by the sleuths of the other. About everyone in any way connected with the matter is being trailed around by a detective.

ARTS AND CRAFTS PRESENTS.

Skill With Tools and Brush Will Make Child's Clothes Rack and Hanging Lamp.

If you are clever in turning out arts crafts work the making of the hanging lamp illustrated will hold no terror for you. Given a black iron kettle with four little feet, get a blacksmith to help, telling him just what to do. Have also a kettle, a dishpan, a tin plate and some iron chain. Have the smith fasten around the rim of the kettle on the outside at equal distances four iron pieces with holes through which the link of a chain can be passed. In each of these fasten a piece of iron chain about three feet long, shorter if the ceiling be very low. Now take a tin dishpan without handles, but of good size, and paint it dull black on the outside and a soft shade of green on the inside. Cut a round hole in the middle of the bottom, with space for a lamp chimney to go through. At four places around the rim equidistant cut holes large enough for a link of the chain to slip through, or it may be simpler to separate the chain here, fastening a hook to the lower length of chain and running the hook through

HOMEMADE HANGING LAMP.

the hole in the pan, catching the upper length to the hook on the other side. By slipping a small piece of iron through the link or the end of the hook on the under side of the pan it will be kept from slipping down unevenly.

For the upper part of this lamp a pie pan would do if it were heavy enough. But it would perhaps be better to have the blacksmith or hardware man cut a round plaque of iron or brass. If the latter it too should be painted black. This should be fitted at the edge with four heavy rings, very firmly placed, to which the four chains are fastened. In the center, on the upper side, is a heavy hook by which the lamp hangs, another hook being screwed through a painted pie pan into the ceiling. This inverted pan protects the ceiling from the smoke of the lamp.

Child's Clothes Rack.

A useful and attractive gift for a child is a clothes rack which may be hung on the nursery wall.

A piece of wood twenty inches wide and five inches deep will do nicely for the foundation of the rack.

Cut a piece of white linen one inch larger than the board. Lay it on a

CHILD'S CLOTHES RACK.

table over a piece of blotting paper and fasten down with thumb tacks. Next transfer the design on the material by means of light blue carbon paper. Then tint the drawing with water color paints.

When the embroidery is finished place the material on the board and paste the edges on the back. Cover the edges with a piece of lining paper, tack on the ribbon and screw in the hooks.

SENATOR CLAY

Georgia Statesman's Career Cut Short by Death.

BERTILLON SYSTEM FOR ALL ARRESTED

Gary Aroused By a New Police Order.

Gary, Ind., Nov. 16.—A storm of protest has arisen from many citizens as a result of an announcement at police headquarters that in the future every person arrested in Gary will be measured and photographed by the Bertillon system. The order will apply even to those arrested for intoxication. Thus whether a man has been disorderly or has been made drunk in one of Gary's numerous saloons he will be subject to the same treatment as the common criminal.

Complaint has been made before to Governor Marshall regarding the alleged misuse of the Bertillon system here, and the governor has replied that he will have a bill introduced into the next legislature regulating the Bertillon system.

In view of the fact that during the first six months of Mayor Knott's administration one in every seven persons was subjected to arrest, half of Gary's population may be criminally catalogued before half another year has elapsed. Persons arrested for political causes will also be subject to the Bertillon measurements, and it is feared the new order will soon become an effective instrument of oppression in the hands of the powers that be.

JAPS ARE FRIENDLY

Ambassador O'Brien Has a Word to Say on the Subject.

New York, Nov. 16.—Thomas J. O'Brien, American ambassador to Japan, has left for Grand Rapids, Mich., his home, to spend ten days before going back to his post.

"The situation is quiet," said Mr. O'Brien, "and there is no question between Japan and the United States that is unsettled. The Japs are most friendly, and reports of any difference which are printed here cause surprise when they are reprinted out there." Mr. O'Brien has been in Japan three years.

Thirty on Joint Ballot.

Indianapolis, Nov. 16.—The last of the official reports received and tabulated by the state board of election canvassers shows that the Democrats will have a total of sixty votes in the house, with the Republicans forty, a Democratic majority of twenty. In the senate the Democrats have thirty votes and the Republicans twenty, a majority of ten. The vote on joint ballot will thus be thirty. Ellingham, Democratic candidate for secretary of state, carried the state by 12,167 votes. J. L. Peetz, candidate for state statistician, led the Republican ticket, the plurality of his opponent being 11,449. Douglas Morris, candidate for judge of the supreme court, led the Democratic ticket, his plurality being 13,376.

Now Taking Strike Vote.

Galesburg, Ill., Nov. 16.—The general grievance committee of the Burlington's engineers have unanimously sustained their grand officers in suspending negotiations with the general managers of the western roads, and a strike vote is now being taken on the system. The outcome will be announced at the meeting with the managers in Chicago Dec. 12. Indications are that a large majority of the men are for a strike.

Dog Faithful to the End.

Hammond, Ind., Nov. 16.—Michael Gleker, aged forty-eight, watchman for the Illinois Brick company, was killed by a Pan-Handle train south of this city. Gleker's pet dog, which also was hit by the train and seriously injured, was guarding the corpse when the trainmen found the body.

Victim of Live Wire.

Newcastle, Ind., Nov. 16.—George O. Lyons, lineman for the light, heat and power company, was shocked to death at the top of a thirty-foot pole in the business district, when he grasped an iron brace against which a high tension wire rubbed, and 2,300 volts of electricity passed through his body.

SIGNALS OF DISTRESS

Seymour People Should Know How to Read and Heed Them.

Sick kidneys give many signals of distress.

The secretions are dark, contain a sediment.

Passages are frequent, scanty, painful.

Backache is constant day and night.

Headaches and dizzy spells are frequent.

The weakened kidneys need quick help.

Don't delay! Use a special kidney remedy.

Doan's Kidney Pills cure sick kidneys, backache and urinary disorders.

Seymour evidence proves this statement.

Mrs. Robert Metz, 314 W. Brown street, Seymour, Ind., says: "I consider Doan's Kidney Pills the best kidney medicine I ever used. Another member of my family also took this preparation with great benefit. We are never without a supply of Doan's Kidney Pills in the house."

For sale by all dealers. Price 50 cents. Foster—Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

As He Saw Her.

Miss Muggs—I can't imagine how your sister failed to find me at the station. You said you would describe me to her. Infatuated Lover (who sees a good deal more in Miss Muggs than other folks can)—Yes. I told her to look for a beautiful girl with the face of a Madonna and the form of a sylph. It's remarkable she missed you.

An Ideal Husband

is patient, even with a niggard wife, for he knows she needs help. She may be so nervous and run down in health that trifles annoy her. If she is melancholy, excitable, troubled with loss of appetite, headache, sleeplessness, constipation or fainting and dizzy spells, she needs Electric Bitters—the most wonderful remedy for ailing women. Thousands of sufferers from female troubles, nervous troubles, backache and weak kidneys have used them and become healthy and happy. Try them. Only 50c. Satisfaction guaranteed by Andrews-Schwenk Drug Co.

Why the English Went to Egypt.

An essay on Egypt by one of Blackburn's brightest school children: "Pharaoh was noted for making bricks, and he had his name stamped on every brick. He was a very extravagant ruler, and in 1879 he brought the country into debt and oppressed the people and they had to work for nothing. He was very cruel. England then sent Lord Cromer, and he has ruled Egypt wisely and well."—London Globe.

Lion Fondles a Child.

In Pittsburg a savage lion fondled the hand that a child thrust into his cage. Danger to a child is sometimes great when least regarded. Often it comes through colds, croup and whooping cough. They slay thousands that Dr. King's New Discovery could have saved. "A few doses cured our baby of a very bad case of croup," writes Mrs. George B. Davis, of Flat Rock, N. C. "We always give it to him when he takes cold. It's a wonderful medicine for babies." Best for coughs, colds, lagripps, asthma, hemorrhages weak lungs. 50c, \$1.00. Trial bottle free. Guaranteed by Andrews-Schwenk Drug Co.

Trophies of the Chase.

Sportsman (to admiring friends)—This bullet hit me while I was hunting in the Adirondacks; I was taken for a deer. This one I got in the Canadian Rockies; I was taken for a mountain goat. This one up in Maine; hunter thought I was a wildcat. I've got three others, but on those occasions I never found out what I was taken for.—Puck.

A Man Wants to Die

only when a lazy liver and sluggish bowels cause frightful despondency. But Dr. King's New Life Pills expel poisons from the system; bring hope and courage; cure all liver, stomach and kidney troubles; impart health and vigor to the wear, nervous and ailing. 25c at Andrews-Schwenk Drug Co.

A Reasonable Proposition.

Bumper—You owe me \$30,000, which you say you can't pay. Why don't you marry Miss Oldgirl? She's worth twice that amount. Jumper—No; I can't do that. But you might marry her yourself and pay me the difference.—Fliegende Blatter.

A Regular Tom Boy

was Susie—climbing trees and fences, jumping ditches, whittling, always getting scratches, cuts, sprains, bruises, bumps, burns or scalds. But laws! Her mother just applied Bucklen's Arnica Salve and cured her quick. Heals everything healable—boils, ulcers, eczema, old sores, corns or piles. Try it. 25c at Andrews-Schwenk Drug Co.

The Tone and the Touch—These are the Things

that have helped to make the CHUTE & BUTLER Piano the favorite wherever it is seen—heard or used—and this often in competition with the highest-priced instruments.

The Chute & Butler Piano

with its sounding board constructed scientifically of selected close-grained spruce, every detail fully developed, and its most perfect, equalized scale, produces a tone that is not only exquisitely sweet, full and true, but one that is lasting and permanent.

Its wonderful, even, responsive action is a delight to all Piano lovers.

The CHUTE & BUTLER Piano is the triumph of 30 years in the Piano and Organ industry. A more beautiful, more satisfactory Piano cannot be found.

You should not seriously consider any other Piano until you see and hear it.

THE CAUSE OF COLDS.

Good Advice Regarding the Prevention of Coughs and Colds.

If people would only fortify and strengthen the system, the majority of cases of colds, coughs and pneumonia might be avoided. These troubles are frequently due to weakness, which produces a catarrhal condition of the mucous membrane, which is an internal skin of the body. When this skin is weakened it becomes easily infected with germs, which cause many of the diseases to which flesh is heir. Healthy mucous membranes are essential safeguards of the body's general health.

We have a remedy which we honestly believe to be unsurpassed in excellence for the prevention of coughs, colds and all catarrhal conditions. It is the prescription of a famous physician, who has an enviable reputation of thirty years of cures gained through the use of this formula. We promise to make no charge for the medicine should it fail to do as we claim. We urge everybody who has need of such a medicine to try Rexall Mucu-Tone.

It stands to reason that we could not afford to make such statements and give our own personal guarantee to this remedy if we were not prepared to prove our claim in every particular, and we see no reason why any one should hesitate to accept our offer and try it. We have two sizes of Rexall Mucu-Tone, prices 50 cents and \$1.00. Some times a 50 cent bottle is sufficient to give a marked relief. As a general thing the most chronic case is relieved with an average of three large bottles. You can obtain Rexall Remedies in Seymour only at our store, The Rexall store. The Andrews-Schwenk Drug Co.

NOT GUILTY

Thus Declares Jury in the Celebrated Case of Robin Cooper.

Nashville, Tenn., Nov. 16.—Robin J. Cooper, charged with the murder of former Senator Edward Ward Carmack Nov. 8, 1908, was adjudged not guilty in the criminal court on recommendation of Attorney General A. B. Anderson. Thus was brought to a close the final chapter in one of the most celebrated cases in the annals of the courts of Tennessee. Judge Neil stated to the jury that in view of the statement of the attorney general and in view of the fact that there was no further effort made to prosecute the case, the jury would return a verdict of not guilty, which was accordingly done.

Carmack was shot down in the street while in a heated argument with young Cooper and his father, Colonel Duncan Cooper. The killing was the result of political differences.

New Board Appointed.

Indianapolis, Nov. 16.—Governor Marshall has appointed Dr. Henry Moore of this city; Isaac Strouse of Rockville, and Dr. O. V. Shuman of Columbia City members of the board of trustees for the state tuberculosis hospital, recently built near Rockville.

A Sharp Retort.

A merry automobile party, touring out from Denver, went by a camp where several consumptives were living out of doors, trying to regain their health. The machine was stopped and the tourists went over to the camp to cheer up the sick people if they could. A thin, little old man, perfectly bald, was sitting in the sunlight wrapped in a heavy overcoat and gazing steadily at the mountains beyond.

"Well, old chap," said a tactless member of the visiting party. "I suppose you are up here for your lungs."

"No," replied the bald old man without removing his gaze from the mountains. "I am up here for dandruff."
